Editors Desk .............

Dear Readers,

It gives me immense pleasure to present you the seventh volume of the BSSS Journal of Social Work. In many ways this volume is special. This journal is our sincere endeavor to contribute towards strengthening social work scholarship. On this path all along, the efforts of my editorial team deserves sincere commendation on this occasion.

The Journal witnessed silent, yet steady growth in its subscription by institutions and individuals over the last year. In future too, I hope to receive similar concern and affection from scholarly community. While I continue to believe that through this journal we strive to achieve newer heights in symbiotic relationship that exists between social researchers and practitioners, nonetheless it is imperative to transcend this researcher-practitioner paradigm in years to come. Focusing this, we plan to take all necessary steps for modernizing the BSSS Journal of Social Work in every aspect. I take this opportunity to assure all the readers that you will find your endeared journal in new avatar very soon.

The present issue has fourteen research articles contributed by academicians and research scholars across India. Like with every volume, this volume too contains critical, and thought provoking contributions from the diverse corners. This time we have attempted to make this more of cutting edge by widening our perspective to allow articles from across the spectrum of humanism. Now everything that concerns the human wellbeing would be within the umbrella for this journal.

With these words, finally I extend my sincere appreciation to all those who contributed for this edition of the journal, at the same time let me reiterate that editorial desk continues to expect more contributions from the concerned scholastic community in the days to come.

With Best Wishes,

Sheeba Joseph
Editor-in-Chief
